EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Shawn Foster on January 4, 2007.

The application has been amended as follows:

In line 7 of paragraph [00115] of the Specification, replacing the word "ratio" with --weight percentage--.

In claim 64, replace "63" with --62--.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The instant amended claims are directed to a polymerization process comprising contacting a catalyst system, monomers and an antistatic agent that has been pre-contacted with a scavenger, wherein the antistatic agent is present from 0.3 to 1.5 ppm based on the weight of the monomers introduced in to the reactor. McDaniel et al. (US 6,833,338) teaches an olefin polymerization process by contacting the a catalyst system, monomers, an antistatic agent, and a scavenger, wherein the amount of antistatic agent is less than 5 ppm based on the weight of the monomers introduced in to the reactor. Applicants have shown in Table of page 37 when small amount of the pre-contacted antistatic agent is in the range from 0.3 to 1.5 ppm based on the weight of

the monomers introduced in to the reactor is used in the polymerization process, the antistatic agent prevents antifouling in the reactor with minimized deactivation to the catalyst. Because applicants have show unexpected minimized deactivation to the catalyst when the pre-contacted antistatic agent is in the range from 0.3 to 1.5 ppm based on the weight of the monomers introduced in to the reactor, the instant claims are deemed to be novel and nonobvious over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
